The Honorable Jocelyn G. Boyd  
Chief Clerk/ Administrator  
4 2018  
Public Service Commission of South Carolina  
101 Executive Center Drive  
Columbia, South Carolina 29210

July

Dear Commissioners:

I hope you have considered the "fees and taxes" that were placed on all the rate increases to the ratepayers of SCE&G. Those fees were unlawfully taken from the ratepayers as well, and should be returned.

I know this seems like a can of worms, but the entire experience for the ratepayers has been exactly that to us. We were never shown, on our bills, what charges were actually in the rates we paid, for our consumption separate from the nuclear reactor charges or any other charges. That should have been clearly marked on our bills from the very start. But it wasn't, and now it is going to have to be dealt with as it comes. I will be bringing this up with the House and Senate as well.

You have the power now to help correct things. Please, do not allow SCANA to continue to hide important documents from you or the ORS or the ratepayers. It is my belief that SCANA will claim any document that would incriminate them in a cover-up of the problems at the build from the very beginning to be "protected" information. I also have seen, time and time again, the PSC allow SCANA to control the meetings and, what appears to be the entire PSC, by simply telling you "this is the way it is." and you take it at face value.

I requested a full investigation to be done years ago and all that was done was an audit that revealed NOTHING. SCANA supplied the figures, so what could have been found out?

Now, You have an opportunity to investigate this fiasco thoroughly by making the entire construction process and everything connected with it transparent. You allowed, unconstitutionally in my opinion, the ratepayers' money to be "taken" (in SCANA's own terms "taking private property without compensation") from the start of the idea of this construction. You can now open up the entire construction and see if we, the ratepayers, have been correct this entire time, and that SCANA has used you to line their pockets with our money.

Please, do not allow SCANA to stop this investigation by loading you down with lengthy repetitious motions. Read them, but take them as coming from those who have fooled you in the past.

With respect,  
Sandra Wright
